

Talia Seada

Data Scientist

(+972) 54-2670780 | talia2cs@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile

Data Scientist specializing in Machine Learning, NLP, and Generative AI, with hands-on experience designing and deploying end-to-end AI systems for healthcare and business applications. Built LLM-powered assistants, RAG platforms, agentic AI workflows, predictive ML models, and cloud-native AI solutions using AWS and GCP. Experienced across the complete AI lifecycle, data engineering, model development, prompt engineering, and LLM evaluation to backend integration, cloud infrastructure, deployment, and production-ready AI systems. Passionate about building AI products that solve complex real-world problems.

Technical Skills

- **Languages:** Python, SQL
- **AI & ML:** PyTorch, Hugging Face, scikit-learn, LLMs, RAG, NLP, Prompt Engineering
- **Cloud:** AWS Bedrock, Bedrock Knowledge Bases, Bedrock Flows, Lambda, S3, IAM, Secrets Manager, GCP Vertex AI, Cloud Run, Databricks
- **Software:** Django, REST APIs, Git, GitHub Actions, Docker, Linux

Experience

Data Scientist | MLAIA Data Science | 2025 - Present

Data scientist working on applied ML and LLM projects for healthcare and industry partners.

- **OffRa Health:** Built an ML and LLM system to predict breast cancer risk and generate personalized diagnostic care plans; implemented a novel research method on medical data; deployed a live web app under clinician review.
- **Assuta Ashdod Hospital:** Developing an NLP system to predict fasting requirements from medical records using locally hosted LLMs with Ollama.
- **TailorPath:** Designed and developed a multilingual AI healthcare assistant integrated with React applications and a Django backend. Built RAG and multi-step workflows using Amazon Bedrock Knowledge Bases and Bedrock Flows, integrating Lambda, external search, and personalized user and patient context. Configured AWS infrastructure, including S3, IAM, Secrets Manager, and knowledge base ingestion. Developed role-aware, page-aware, and accessibility-focused assistant behavior with Hebrew/English support.

Research & Teaching Experience

- **MSc Researcher | Ben-Gurion University of the Negev (2024 – 2026)** - Developed StanceSum, a multilingual (English–Hebrew) benchmark and evaluation framework for measuring stance preservation in LLM-generated summaries, revealing systematic stance shifts overlooked by traditional factuality and similarity metrics.
- **Research Assistant | Ariel University (2021-2024)** –
2023 - 2024: Developed a Hebrew LLM derived from LLaMA2 using PyTorch and Transformers.
2021 - 2022: Co-authored a paper in Nature Scientific Reports [Article](#).
- **Teaching Assistant Databases | Ariel University (March – August 2024); Ben-Gurion University of the Negev (October 2025 – March 2026)** - Taught SQL, relational algebra, and ML fundamentals.

Education

MSc in Software and Information Systems Engineering | Ben-Gurion University of the Negev | 2024-2026

- Thesis: Developed StanceSum, a multilingual (English–Hebrew) benchmark and evaluation framework for measuring stance preservation in LLM-generated summaries, revealing systematic stance shifts overlooked by traditional factuality and similarity metrics.
- Coursework: Biomedical Informatics, Predictive Modeling in Healthcare, NLP, Deep Reinforcement Learning, and Confidential Computing.

BSc in Computer Science and Data Science | Ariel University | 2020-2024

- Participated in Microsoft-Ariel social tech hackathon – 3rd place.
- Gained experience in Python, SQL, networking, and Linux.

Projects

EmoSketch: A Multimodal Bot for Emotion Analysis in Children's Drawings

- Building EmoSketch, a multimodal AI system leveraging computer vision, LLMs, and prompt engineering to interpret emotional cues in children's artwork, with planned WhatsApp integration.

Volunteering

AI Developer | Code for Israel - Krembo Wings Initiative | February – June 2025

- Built an AI-powered games for children with special needs. Focused on accessibility, user interaction, and prompt optimization.
